ECE – Big Upsides & Opportunity in the Nth West

Offered to the market for the first time in over 25 years, these two residentially zoned land and buildings, along with the operating childcare business of over 65 license spaces provides both flexibility and certainty.

Flexibility because you can purchase both buildings (both are needed to operate the license) or purchase one and lease the other with an option to purchase later.

Certainty comes from owning your own building and controlling your rent. This has been a particularly significant advantage to those who owned their own buildings during the Covid lockdowns.

Due to Vendor illness, the business has not been operating particularly well over the last couple of years. A new owner has a good platform to start from and new energy could give the business a big lift.

Options and possibilities exist to operate this business over a combined land size of 1540sqm.
