

Water Bottling Business for Sale – Make an Offer

Business + Land & Buildings – Make an Offer

We make available to a suitable purchaser, one of NZ's purest spring water sources originating from Antarctica, meeting both MPI & International standards. Producing Natural Spring Water of the highest export quality, sourced from the deep underground aquifer on the property, Resource Consent has been issued to extract forty-three million litres per annum (120,000 litres a day) from the existing bore on the property.

With an automated bottling facility onsite providing a competitive advantage in this industry, the client was in the process of upgrading the bottling facility to meet an international order spanning 3 years. The owner advises this order is worth approx. \$5.5M. With the business closing 2Q2022 unless sold, this order remains active based on the upgrade being completed.

With the bottling facility on the property, the business product lines include (1) Bottled Water (Plastic/Glass), (2) Water in A Box and (3) Bulk Water Supply, under a sustainable level with the opportunity to increase volume based on council approval.
