Iconic Campbells Bay Motors for Sale

New to the market, Campbells Bay Motors is very well located in a heavily populated residential area between Mairangi Bay and Campbells bay on Auckland's North Shore.

This well-equipped 3 bay mechanical workshop has a tidy spacious working environment and a large yard for vehicle storage. This workshop also comes complete with an extensive asset list including 3 hoists, 2 courtesy cars and some specialised diagnostic scanners.

The business has been operating from its current location for many years and in the ownership of the current vendor since 2004. Offering general repairs and servicing to all makes and models this business has served the local community well and has many glowing reviews.

This is a great opportunity for a family or a young mechanic to enter the business world at an entry level price. There is opportunity to grow this business further as there is very little in the way of marketing and advertising in place at present. This workshop has produced a healthy profit to the owner year after year and a new owner could improve this even further with a dedicated business plan.
