SCAFFOLDING BUSINESS – Earning Circa *\$290K

Started as a side-line business, the Vendor has built up a profitable stand alone scaffolding business which has plenty of growth potential. *Last financial year's earnings show circa \$290K; this financial year's earnings are tracking well at circa \$117K for 4 months ending 31st July 2015.

All of the business comes from customer relationships, word of mouth, referrals and a great base of loyal customers. With around *10 - 12 solid repeat customers, work is well spread with no one customer accounting for a large portion of the work. There has been no marketing, website or direct prospecting for work, so there is HUGE potential to grow this already profitable venture. Home based, this is a simply run operation with a South Botany based storage facility for the tube and clip scaffolding equipment. The Vendor has a pool of reliable, Site Safe accredited, qualified scaffold workers who pick up the gear, then erect and dismantle it as required. The business is simple to operate and with no full time employees, overheads are kept to a minimum. The simple hire business model, minimum hours (*on average 30 per week), profitability and the exciting prospect of growth with the development of a website should make this opportunity a very exciting and attractive proposition.
