

Manufacture, Import, Wholesale HUGE Product Range

This company is engaged in the importation, manufacturing and wholesaling of high-end systems – supplying retail, corporate and commercial sectors nationwide with their extensive range of quality product. The business is well established and throughout its long history, customers have grown to trust and rely on the recognisable brand. Their word of mouth reputation due to quality product and service should not be underestimated as their database is considerable at circa 2,000. An advantage over any opposition is their ability to make to order customised products, whereas competitors supply a one size fits all solution such as standard sizes. Situated in one of Auckland's sought after central locations, the highly visible premise includes an interactive showroom, plenty of parking and a manufacturing workshop which allows for increased production, including exclusive lines for NZ. The business has extremely good systems in place and has dedicated and knowledgeable production staff. *We feel an ideal new owner would be one from a sales & marketing background to capitalise on the untapped potential. However the business would suit any operator as the systems in place are practical and straightforward. Asking price on this exciting venture is \$545,000 which includes \$300K Stock & \$35K Assets. If you
