

Extremely Fast Growing FMCG Manufacture Investment

markets have been established. Investment is now required to increase production from 16 containers per month to 560 containers per month.

- Revenue is forecast to be over \$11 million by July 2017 and increase to over \$100 million by July 2019.
- EBIT is forecast to be \$4.4 million by July 2017 and increase to \$50 million by July 2019.

This is a relatively new, innovative business that has sought and established markets before investing hugely on equipment. The business started in 2015 after receiving a World Wide Patent. Then supply contracts were signed with the Middle, East, China and a number of smaller countries. More recently supply contracts have been signed with the USA and many other contracts are being worked on.

Investment of \$1.5 million is required to install plant and for working capital which will increase capacity to supply orders.

A further investment of approximately \$12 million will be required, \$8 million for a new plant line plus \$4 million to build on land that has been purchased.

In reward, a Convertible Note at an interest rate of 6% will be offered. The note can be converted to shares of equal value plus interest.
