## One Stop Shop - Tidy Construction Related Biz

Operating for over 6 years, this busy project management business services both residential and commercial clientele in the light construction market, with an approximate 50/50 split between the residential and commercial sectors. This business has built a team of quality, specialised tradesmen, associated labour and subcontractors that complete work from start to finish - resulting in total customer satisfaction. Thus, there are many regular customers and excellent word of mouth referrals.

The 2017 financial year produced an EBPITDA of \$270,000 and the owner tells us there is real room for expansion; however genuine reason forces the sale of his business that the owner started from scratch after identifying the need for a complete maintenance / renovation solutions to meet individual needs.

As well as having excellent relationships with its clients and suppliers, this business has also developed a fantastic relationship with a major office furniture supply company and has acquired the national contract for their flat pack assembly throughout NZ. This is an area of the business that could have a lot of potential for a new owner to expand on. Very good in house administration systems are in place and the staff are very well trained in their roles to ensure a new owner will take over a business that is set to succeed further in this opportunistic market.

Very well priced at \$540,000.
