

You Drive the Profit

s very well established and respected Auckland limousine company is very popular and well supported for Corporate work, airport transfers, weddings, school balls, special occasions, VIP's - servicing the greater Auckland area. It can be based anywhere in the greater Auckland area.

With currently just one stunning black beauty 9 seat limousine, a new owner for this business who can input more time and marketing could soon be looking for another vehicle to add to the business. The Vendors are involved in multiple businesses and, even though it shows a good return, have not devoted the time and effort into this business that they should have, and they are resigned to the fact that the right buyer should benefit handsomely from the base they have built.

Who should buy this business?

- If you have a flexible working hours' part time business and are looking to add to your working day.
- Perfect semi-retired role for a person who enjoys people and is not looking to work too hard.
- Or: you are someone who has the time to take this business by the horns and grow it into a successful multi-car limousine operation. It will require you to work in the business to start with, but you should be able to extract yourself into a working on the business situation slowly as it builds. There certainly appears to be the demand for a much larger fully professional Limo Hire company in Auckland.

Very Well Priced at \$148,000.
